MOTomed®
MUVI

Uniquely simultaneous

MOTomed muvi users can train either **separately or simultaneously with their legs, arms and upper body**. The speed and resistance of the leg and arm/upper body trainer can be separately adjusted. The holistic MOTomed movement can effectively improve muscle strength and mobility, as well as ideally strengthen the cardiovascular system.

Non-binding fig. of MOTomed muvi

MOTomed® muvi

Leg and/or arm/upper body trainer with simultaneous movement

Order number: 300.000

Technical data

Dimensions (L×W×H):	95–108 × 60 × 124–135 cm
Weight:	51 kg
Maximum patient weight:	135 kg
Display size:	12.1" / 30.7 cm
Classification:	Ila according to MDD 93/42/EEC / MDR (EU) 2017/745
Mains voltage: 100–240 V~ / max. 120 VA, mains frequency: 47–63 Hz, class II equipment / Type BF	

Standard equipment

- Simultaneous training, separately adjustable training modes for leg and arm/upper body trainer
- Colour touch display (12.1"), rotatable, inclinable
- Plastic-coated safety foot shells with fastening straps
- Plastic-coated handle
- Rotatable arm/upper body trainer, adjustable in height and distance
- Plastic-coated handles with quick release system
- 2-stage pedal radius adjustment (7 cm or 12.5 cm)
- Sturdy all-metal construction, high quality and stable, with telescopic front stand
- Easily movable with large castors (Ø 15 cm)
- Integrated operating film
- Serial interface, USB interface
- Colour: white/chrome/black

Functions

- Passive, Assistive and Active Training
- Simultaneous training of leg and arm/upper body trainer, separately adjustable (concurrent, simultaneous training)
- Individual arrangement of operating keys possible
- Electronic foot insertion aid
- Speed from 1 to 60 rpm (passive)
- Resistance from 0 to 20 (active)
- Motor power from 1 to 10 (passive)
- Presetting of therapy time from 0 to 120 minutes
- MovementProtection & SpasmControl
- Safety stop
- SymmetryTraining of leg and arm/upper body trainer
- Quiet, gentle and harmonious cycle movement (SmoothDriveSystem)
- Gentle starting and stopping of the movement
- Therapy and motivation programs
- Detailed biofeedback during and after training
- Export of training data and import of own training programs
- Games & videos
- Slideshow via USB (delivered without USB stick)
- Language selection

MOTMed® LOOP EDITION

MOTMed loop on top

With the new and innovative height adjustment, users can adjust the height of the MOTMed loop without using tools. This feature allows the leg and arm trainer to be optimally adapted to the user, enabling patients to use the MOTMed loop from an active wheelchair, electric wheelchair, care wheelchair, a seat shell or even a chair.

Non-binding fig. of MOTMed loop.la

MOTomed® loop edition

The MOTomed loop models stand for a future-oriented movement therapy in a sitting position. The innovative height adjustment, modern hygiene system for professional use, a minimalistic design with a new feel, optimized dimensions and proportions, and intuitive operation have all contributed to a revamp of the MOTomed devices to provide users from a height of 140 cm with a progressive training experience.

Standard equipment

- Height adjustment of leg or arm/upper body trainer adjustable by 15 cm without tools. The pedal axle height of the leg trainer is height adjustable in the range 30 to 45 cm (measured from floor).
- Colour touch display (7"), inclinable, retractable
- Sturdy metal construction, high quality and stable
- 2-stage pedal radius adjustment (7 cm or 12.5 cm)*¹
- Closed plastic body (PC/ABS), thus easy to clean and disinfect
- Easily movable with large castors (Ø 13 cm)
- Soft Grip transport handle
- USB interface
- Device stand width 38.5 cm
- Colour: white/chrome/black

*¹ Not valid for MOTomed loop models (.a)

*² Not valid for MOTomed loop light.la and MOTomed loop light.l

*³ Only valid for MOTomed loop models (.la)

*⁴ Only valid for MOTomed loop kidz models

Functions

- Passive, Assistive and Active Training
- Change from leg to arm training via Touch*³
- Electronic foot insertion aid
- Passive speed from 1 to 60 rpm (90 rpm for MOTomed loop parkinson)
- Resistance from 0 to 20 (active)
- Motor power from 1 to 10 (passive)
- Adjustable flywheel mass*²
- Presetting of therapy time from 0 to 120 minutes
- MovementProtection & SpasmControl
- Safety Stop
- SymmetryTraining
- Quiet, gentle and harmonious cycle movement (SmoothDriveSystem)
- Gentle starting and stopping of the movement
- Therapy and motivation programs*²
- Detailed biofeedback during and after training
- Presetable training parameters
- Export of training data and import of own training programs*²
- Games*²
- Slideshow via USB (delivered without USB stick)*²
- Child-friendly software*⁴
- Language selection

Uniquely upgradeable

The individual MOTomed loop devices can be adapted to different requirements by means of an Upgrade Bundle. Detailed information on the available MOTomed loop extensions can be found in the [upgrade table on page 60/61](#).

MOTOmed® GRACILE12

MOTOmed gracile12 grows with you

The MOTOMed gracile12 grows with the child thanks to a wide range of adjustment options. For example, the **pedal axle with foot shells is infinitely height adjustable**. The MOTOMed gracile12 is available as a leg trainer but also as a leg or arm/upper body trainer to meet the different patient requirements.

Non-binding fig. of MOTOMed gracile12 leg trainer

MOTomed[®] gracile12

Uniquely child-friendly

The MOTomed gracile12 was specially developed for children and small people with limited mobility. From a height of about 90 cm, children and adults can enjoy the efficient MOTomed movement therapy with safety functions, motivational games and therapy programs. If required, the leg trainer can be extended with the arm/upper body trainer and other accessories. The quiet motor is conducive for both concentrated therapy sessions as well as for exercising at home.

Standard equipment

- Pediatric safety foot shells and pediatric leg guides with calf shells
- Smaller inner diameter of 12 cm
- Sturdy full metal construction, high quality and stable
- Large, user-friendly display (5.7")
- Height adjustment of the pedal axle from 26 to 46 cm
- 2-stage pedal radius adjustment (3.5 cm or 7 cm)
- Easily movable with large castors (Ø 13 cm)
- Telescopic front stand
- Colour: blue/white/chrome

Functions

- Passive, Assistive and Active Training
- Electronic foot insertion aid
- Speed from 1 to 60 rpm (passive)
- Resistance from 0 to 20 (active)
- Motor power from 1 to 10 (passive)
- Presetting of therapy time from 0 to 120 minutes
- MovementProtection & SpasmControl
- Quiet, gentle and harmonious cycle movement (SmoothDriveSystem)
- Gentle starting and stopping of the movement
- Safety stop and SymmetryTraining
- Therapy and motivation programs
- Detailed biofeedback during and after training
- Games
- Language selection

The pedal axle of the leg trainer is steplessly height adjustable from 26 to 46 cm (measured from floor).

The child-friendly pedal distance of 12 cm avoids misalignment of the hip joint.

MOTomed® gracile12

Leg or arm/upper body trainer

Order number: 594.003 + 599.000

MOTOmed® LAYSON

Simple operation and modern hygiene management

MOTOmed layson is flexible and easy to move and can be fixed centrally thanks to free rolling casters. The high-quality material of the softly rounded surfaces also meets the high requirements of hygiene management in rehabilitation facilities and clinics.

Non-binding illustration of MOTOmed layson.la (expandable chassis)

MOTomed® layson edition

The new generation of movement therapy in supine position: The models of the MOTomed layson edition offer motor-assisted and active training of legs or arms with impressively intuitive and easy operation. The height of the models of the MOTomed layson edition can be adjusted steplessly without effort by means of a gas spring. They can be easily and comfortably driven and can be individually adjusted in just a few simple steps. The orange control elements have an intuitive calling character. The reduction to just a few operating elements enables fast and effective handling in everyday clinical routine.

Two chassis types available

Parallel chassis

By moving the rails parallel (manually with Allen key), the width of the chassis can be adjusted to different requirements. Suitable for one single adjustment.

Expandable chassis

The two chassis rails can be spread (by using a lever) to enable quick and tool-free adaptation to different applications. Suitable for multiple daily adjustments.

* Inward spreading only for MOTomed layson.I models

Standard equipment

- Gas spring support for height adjustment
- Selectable parallel chassis or expandable chassis with ground fixation
- Knee bending adjustment incl. adjustment wheel
- Colour touch display (7"), rotatable, inclinable*²
- Quick release system for foot shells and handles*¹
- Pedal radius: 7 cm
- Sturdy metal construction, high quality and stable
- Closed plastic body (PC/ABS), easy to clean and disinfect
- Easily movable with large castors (Ø 7.5 cm)
- Centrally operated 4-point ground fixation
- (Serial interface), USB interface
- Plastic-coated transport handle
- Patient remote control
- Colour: white/chrome/black/orange

*¹ Standard equipment for MOTomed layson.Ia models

*² Standard equipment with fixed operating panel

Functions

Many models
are upgradeable

MOTOMed® UPGRADES

Digital intelligence

To meet new needs, users have a total of **61 upgrades** available to enhance their leg or arm/upper body trainer, arm/upper body trainer and leg trainer. The MOTOMed loop can also be adapted to new indications via a software package (e. g. Parkinson's disease).

MOTomed® Upgrade Bundles

Our motion trainers of the MOTomed loop edition can be adapted with Upgraded Bundles to meet changed requirements. Thanks to the use of different attachments and software packages, almost every MOTomed loop can be upgraded. All extensions can be found in the [upgrade table on page 60](#), or contact RECK (tel: +49 7374 18-85) or a specialist dealer you trust.

Frequently used MOTomed loop Upgrade Bundles:

260.211

MOTomed loop.l >>> MOTomed loop.la

Included in the Upgrade Bundle: software package, Soft Grip handles (pair, incl. pedal cranks)

260.251

MOTomed loop light.la >>> MOTomed loop.la

Included in the Upgrade Bundle: software package, plastic-coated safety foot shells with fastening straps (pair, incl. pedal cranks)
